Microsoft Teams - Channels

The screenshot displays the Microsoft Teams interface. On the left, the navigation pane shows the 'Teams' section with a list of teams: 'Marketing' (Northwind Traders), 'Northwind Traders', 'Tailspin Traders', and 'Account Teams'. The 'Marketing' channel is selected, showing sub-channels like 'General', 'Performance', 'Shiproom', and 'Fiscal Year Planning'. The main area shows the 'Marketing' channel with a post by Charlotte de Crum at 8:30 AM: 'Hey all, let's get all the designers together to make sure we are on the same page for the upcoming client pitch.' Below it is a 'Weekly Update' post by Krystal McKinney at 9:18 AM: 'In yesterday's meeting we looked at investment areas. When I worked on project SOAR for this client too. I'll find some examples for us to look at.' A third post by Kian Lambert at 9:27 AM says: 'Hey all, as the date for the big pitch nears, I wanted to express how appreciative I am for the support and resources put in for this. I know there have been some really late nights and weekends. See you all soon. Thanks for the long history with them.' A sidebar on the right shows details for the 'SOAR' project, including alternate names, a description, and suggested resources like 'EU Regulations: Farm to Fork' and 'Project SOAR Customer Presentation'. A 'New conversation' button is visible at the bottom of the main area.

Microsoft Teams - Topics

The screenshot shows the Microsoft Teams interface for a topic named "SOAR". The top navigation bar includes a search bar with the text "Search or type a command" and a user profile icon. Below the navigation bar, the "Topics" section is active, showing a breadcrumb trail: "Topics > Home > My topics > Manage". The topic name "SOAR" is prominently displayed at the top of the content area. Below the name, the alternate name "Alternate name: Sustainable Operations and Reliability" is shown, followed by the source information "From Mona Kane, Mon at 9:17am". The main content area contains a paragraph of text: "Starting in CY 2021, Relecloud will focus on new verticals for our commercial drones. Project SOAR leads the way in sustainability with the latest innovations in drone technologies to enable our customers to have better agricultural businesses. The future of farming will rely upon new technology to improve agricultural output and meet the growing global demand for food. The Mark 8 UAV with high-resolution cameras and next generation sensors can be flown over thousands of acres/hectares of farms and gather data. This data can be used to map water levels, crop stress, pest damage, and per hectare yield. Drone imagery assists the farm manager to monitor without the need of surveying the farm manually and laboriously." Below the text, it indicates the source: "From SOAR Goals and Outcomes.docx". The "Pinned people" section features three cards for team members: Mona Kane (Senior Engineer, Leads infrastructure engineering team), Miguel Garcia (Program Manager, Project lead and owner of the roadmap), and Collin Ballinger (Design Manager, Design manager researching geothermal and heatmaps). At the bottom, the "Suggested people" section is partially visible.

SOAR

Alternate name: Sustainable Operations and Reliability

From Mona Kane, Mon at 9:17am

Starting in CY 2021, Relecloud will focus on new verticals for our commercial drones. Project SOAR leads the way in sustainability with the latest innovations in drone technologies to enable our customers to have better agricultural businesses. The future of farming will rely upon new technology to improve agricultural output and meet the growing global demand for food. The Mark 8 UAV with high-resolution cameras and next generation sensors can be flown over thousands of acres/hectares of farms and gather data. This data can be used to map water levels, crop stress, pest damage, and per hectare yield. Drone imagery assists the farm manager to monitor without the need of surveying the farm manually and laboriously.

Ally (OKR Tracking)

Drive results by aligning employee work with the company's outcomes

Access and update goals, check in on progress, and see a shared view of team priorities through a central hub

See how your work contributes to company mission throughout your employee experience

Access your most important priorities right where you are working

Release timing:

General Availability – H2 CY2022

Timing is for planning purposes and subject to change.

The screenshot displays the Ally OKR Tracking interface for Relecloud, Inc. The main content area shows a list of OKRs with columns for Objectives, Owner, Status, and Progress. The OKRs are grouped by time period: Annual 2021 and Q3 2021.

Objectives	Owner	Status	Progress
Annual 2021			
Deliver a "must-have" product that delights customers	[User]	Behind	60%
Achieve record revenue while maintaining profitability	[User]	At risk	40%
Build a best-in-class company culture	[User]	On track	85%
Q3 2021			
Expand into LATAM and capture 25% market share	[User]	Behind	54%
Conduct comprehensive LATAM market research	[User]	At risk	23%
Hire 40 bilingual sales executives	[User]	On track	81%
Launch Spanish-language version of the product	[User]	Behind	60%
4 KRrs are not contributing to progress			
Reduce churn to less than 5%	[User]	On track	80%
Strengthen our marketplace ecosystem	[User]	At risk	20%

The right sidebar shows an Activity feed with check-in notes and comments. For example, Beth Davis made a check-in on "Deliver a 'must-have' product that delights customers" with a progress of 60% and status of Behind. Ray Tanaka made a check-in on "Achieve record revenue while maintaining profitability" with a progress of 40% and status of At risk. Alvin Tao commented on "Expand into LATAM and capture 25% market share" with a note: "Great progress team! Let's keep the momentum going. We must prioritize the localization efforts for the 'Spanish MVP' and get feedback from our early adopters."
